Gift Cards & Certificates

The Perfect Holiday Solution

The old paper gift certificates have come of age with the credit card sized gift cards which are so easy to carry and use. POSitive For Windows makes it easy for you, the Retailer, to sell and accurately track their use.

When a customer wishes to purchase a gift card or certificate, enter the SKU GIFTCERT on the invoice. This will prompt the clerk to scan or enter the Gift Certificate Number and enter how much the card will be worth.
